COMPOSITION

The high visibility flat panel is manufactured from 5005 0.9mm aluminium sheet. Custom made photoluminescent pigments are embedded in thermoset polyester carriers to integrally bond the active ingredients onto the aluminium sheet following curing at high temperature – a process known as HTC.

This sign also has HTC Clear Coating added to protect the print in outdoor environments.

INSTALLATION

The sign should be installed using fixers (screws). Please note the sign is supplied without drill holes.
